

OUTLINE

Project Title: Bee and Puppocat Microsite

I want this micro website to be about one of my favorite tv shows of all time, Bee and Puppocat! Bee and Puppocat is an epic show about Bee, a young adult woman who can't hold even a low paying job and her pet/friend Puppocat that she found after he fell from the sky. Together they go on space missions to pay their rent and the magical backstories of Bee and Puppocat are revealed as the series progresses!

In terms of the website layout I want a continuous scroll page with a cute, cartoon space theme that would match the show's aesthetic. If appropriate or needed, a navigation bar or flyout menu could be included to help with fast navigation to the different website sections.

I want the page to have these elements:

1. **Appropriate header-** with the Bee and Puppocat logo and/or or full bleed image from the show(whatever seems most fitting)
2. **Plot Summary section-** what the show is about
3. **Characters section-** a grid and brief description of some of the most important characters of bee and puppocat (DON'T JUST DO BEE AND PUPPYCAT, add a few more characters too, about 6-8 would be good)
4. **About the Artist section-** Natasha Allegri is the creator of Bee and Puppocat. Summarize who she is and her journey to creating Bee and Puppocat. Include a picture of her in this section if possible.
5. **Streaming Platforms section-** you can stream Bee and Puppocat on Netflix. Similar shows: Adventure time, Fionna and Cake, and Steven Universe
6. **Footer-** wikipedia article link, your name credit as the website creator
